SUMMARY

A meticulous Software Developer, with over a year of hands-on experience in crafting dynamic front-end web solutions. My journey has been marked by honing my skills in Software development, where I've cultivated a deep understanding of Application Programming Interfaces, harnessed the power of Cascading Style Sheet Frameworks, and leveraged JavaScript Libraries to bring compelling web experiences to life, and a distinction graduate of University of Abuja with excellent communication skills, I am inherently self-driven and possess a boundless motivation to continually enhance my problem-solving acumen.

EXPERIENCE

Software Developer, GMT Software   *Dec 2023 – Present*
- Translated UI/UX designs into robust code, utilizing React, Tailwind CSS, and JavaScript, resulting in visually appealing and responsive web applications.
- Collaborated closely with interdisciplinary teams, including designers, product managers, and backend developers, to seamlessly integrate frontend components with backend functionalities, ensuring optimal performance and user experience.
- Conducted comprehensive testing and debugging procedures to maintain the integrity and functionality of web applications, proactively identifying and resolving any issues to deliver a seamless user experience.

PROJECTS

My Portfolio
